❑..want information on LASIK surgery?

❑.. have children?

What are your hobbies?

_____

What specific problems do you have with your vision, eyes, glasses, or contact lenses?

_____

Dilation Consent/Retinal Photos Consent

Dr. Garretson and the American Optometric Association recommend a **dilated eye examination** to fully assess the health of your eyes. With dilation, drops are placed in the eyes to enlarge the pupils so that the doctor can carefully examine you for eye disease.
Dilation will cause sensitivity to light and will make your near vision temporarily blurry.

___ Yes, I consent to have my eyes dilated today.
___ No, I do not wish to have my eyes dilated, and I agree to hold the practice harmless as a result.

Dr. Garretson also recommends **screening retinal photography** as an extension to your comprehensive eye health and vision exam. This instrument provides important diagnostic information and can be performed without the use of dilating drops. These photographs will become a permanent part of your electronic medical record in our office and form a baseline to track any subtle changes in your eye health from year to year. There is an additional fee of $30 for retinal photography.

___ Yes, I would like to have retinal photos
___ No, I do not wish to have retinal photos
